

Klip River Forum Charter

✳ Vision

To strive towards a healthy and safe water environment that is sustainable for all use through pro-active stakeholder participation within the Klip River Catchment

✳ Mission

To provide a platform for the development of an integrated water resource management strategy for the Klip River Catchment through inter-active stakeholder participation

✳ Objectives

- To provide the opportunity to maintain a platform that is open, participative and representative of all the stakeholder within the Klip River Catchment.
- To develop and implement short, medium and long term goals of a water resource management strategy for the Klip River Catchment.
- To promote the protection, use, development, conservation and management of water resources within the Klip River Catchment.
- To effectively communicate and inform the stakeholders of the goals of the water resource management strategy of the Klip River Catchment.

The Klip River Forum is constituted in terms of the National Water Act, 1998 (Act 36 of 1998) and is a non-profit organisation consisting of stakeholders actively participating in sustainable water resource management of the Klip River Catchment and its associated tributaries.

Committed roleplayers include government departments, non-governmental organisations, industries, mines, local authorities, water service providers and the general public within the Klip River Catchment.

Forum meetings are held quarterly where the stakeholders can actively participate in the sustainable water resource management of the catchment.

The Klip River Forum Management Committee has been established to co-ordinate and manage activities for and on behalf of the Klip River Forum

For further information regarding the activities of the Klip River Forum, please contact the chairperson and vice-chairperson of the Forum Management Committee:
