| 6 | Additions to the Agenda | |
| 6.1 | <ul style="list-style-type: none">Dates for 2011 | |
| 6.2 | <ul style="list-style-type: none">Feed back on August forum meeting by M de Fontaine | M de Fontaine |
| 7 | Items for discussion | |
| 7.1 | Presentation by M de Fontaine on feedback from the August assessment. | M de Fontaine |
| 8 | Items for discussion | |
| 8.1 | Water Quality Report-DWA At the last meeting it was indicated that DWA was not sampling for the past 3 months due to some financial constraints. Sebokeng: Big challenge with the ficult point. D Rambuda stated that he tried speaking to George about the non compliance. <ul style="list-style-type: none"> Emfuleni is looking at upgrading their plant since they had been dealing with a challenge of over expanding. They will continue not complying until the plant has been upgraded. All variables seem to be working the only non compliance is Chlorine. If funding is found then Emfuleni could start with Module 7 as soon as possible Emfuleni has been appointed by DWA for funding and R12.5 million has been provided in the interim. Rietspruit has not been complying, it was suggested that an emergency dam needs to be build and that funding application for building this dam | DWA |

| | | |
|------------|---|------------|
| | <p>has been launched. Ennerdale: non compliance happened only once but other than that Ennerdale has been complying. It was suggested that every time DWA does its sampling they should do a split sampling with Rietspruit because their sampling points do not coordinate.</p> | |
| 8.2 | <p>Water Quality Report- Rand Water Rand Water presented their quarterly water quality report.</p> | Rand Water |
| 8.3 | <p>Water Quality Report –City of Johannesburg Points of concern are RS5 and RS7. They have realized that they are facing problems in terms of Ecoli which is very high and the problem has been referred to Joburg Water and this problem is a sewer related matter. A map was requested from the last meeting and was provided at the present meeting.</p> | |
| 8.4 | <p>Biomonitoring and Toxicity Monitoring No representative</p> | |
| 8.5 | <p>Hydrological Monitoring No representative</p> | |
| 8.6 | <p>Situational Analysis and Assessment E Matseba is responsible for this particular issue, still finalizing funding module but feedback will be given early next year at the next forum meeting.</p> | |
| 8.7 | <p>Solid Waste Management There has been no serious water issue at the moment. It was suggested that T Pather report on existing and operating landfills at the next meeting and on all forum meetings in future.</p> | T Pather |
| 9 | <p>Catchment Activities (5 minute report back by stakeholders)</p> | |
| 9.1 | <p>Ezulwini Mine No report, will report back at next meeting.</p> | |
| 9.2 | <p>Kloof Gold Mine No representative</p> | |
| 9.3 | <p>ArcelorMittal S.A No recent activities to report. Phase 1 is almost done and there have been no pollution incident reported.</p> | |

| | | |
|-------------|--|--|
| 9.4 | South Deep Mine No report back given. | |
| 9.5 | Ceramic Industry Project of cleaning underway which will be completed 2011 | |
